

## The Activators – Biography

**The Activators** are an 11-piece band whose eclectic style transcends Ska, Reggae, Celtic, Punk and Dub, even venturing into Balkan folk and Tango!

**The Activators** have received acclaim for their sensational and chaotic live shows. Their energy, style and liking for utter mayhem has led to them becoming regulars on the festival circuit in the UK and in Europe. 2015 and 2017 saw them headline the Avalon Café Stage, Croissant Neuf Big Top and The Bandstand at The Glastonbury Festival, 2016, 2017, 2018 and 2019 saw them tearing up Boomtown Fair.

They have raised the roof at venues across Europe from Paris to Bologna to Reykjavik, and across the UK, sharing the stage with many great acts from Jimmy Cliff to The Beat, The Skints to The Dub Pistols, and Fatboy Slim to Fraeblblarnir (Iceland's finest!) to name but a few.

One thing is for sure, when **The Activators** walk on to any stage, things start to get interesting! Music Beyond Boundaries - check it out!!
